

Microvitum in a Nutshell

❌ **Microvitum in a Nutshell by Shrii Prabhat Rainjan Sarkar**

The concept of Microvita, introduced for the first time on 31 December 1986 by P.R. Sarkar, is expanded and discussed under various aspects on this book. Microvita are entities which come within the realms both of physicality and of psychic expression. They are smaller and subtler than physical atoms and sub-atomic particles, and in the psychic realm they may be subtler than mind-stuff. The author predicts that they will soon be recognized by conventional science.
